By the time you receive the August PIPER, we will have crowned a Men's, Ladies', and Junior Club Champion. Congratulations to our winners and "thank you" to all of our participants for playing in these events. The Men's Flights, Seniors' and Super Seniors' matches, are underway and we hope to crown champions in these events by the end of September. Heading into August there is still a lot of golf to be played. The month of August is highlighted by the following events. The Father/Son Championships will be played from August 2-10. The Mother/Daughter and Mother/Son events will be played over the entire month of August. The ladies' Chairman's Trophy will be played on August 5 and August 7. Mixed Guest Day will take place on Sunday, August 10. The event will begin with a 1:30 shotgun start. The August ladies' ABCD will take place on August 12 beginning with an 8:30 shotgun start. August 13 is the date for the Men's Guest Stag for the month of August. Lunch is at 12:00 noon followed by golf at 1:00. Nine and Dine on Friday, August 15, is a great way to end the week. August 24 is the Mixed Event for August. Format will be one best ball from the men and one best ball from the ladies (1:30 shotgun). Rounding out the month will be the Labor Day Ringer for both the men (August 30-31-Sept. 1) and the ladies (August 31-Sept. 1). Tee times will be needed for play on August 31 and Sept. 1 from 11:30 a.m. -3:30 p.m. The club will be closed on Tuesday, Sept. 2.

The Moraine Board of Governors authorizes three local high school golf teams to use the club for three 9-hole matches. Alter, Fairmont, and Oakwood High Schools will begin playing their matches on Tuesday and Thursday afternoons. Matches are played during the months of August, September and October. Please see the 2003 Moraine Golf Guide for a complete listing of match dates. In appreciation for using the course for their matches, all three teams spend an afternoon in October filling divots in the fairways.

Where has this summer gone?? With school starting this month, caddies will be available during the week through August 22. Caddies will be available on the weekends only from August 23 going forward. Please let us know your golf plans in advance and we will do all we can to accommodate caddy requests on the weekends.

The Golf Shop at Moraine will be changing seasons slowly as we head towards fall. Fall apparel will be arriving throughout the month of August. Watch for the "lucky size shoe sale" during the month of August. Also beginning in August, I will begin selling my 2003 demo clubs. If you are interested in purchasing "experienced" clubs, please let me knowit's always the equipment never the player.

See you on the links.

Green Committee

During the course of a golfing season, various important activities take place on a regular schedule to keep our course in prime condition. One of these activities is AERIFICATION.

Aerification is the removal of small soil cores or plugs of soil with grass the turf surface, leaving holes in the sod. Hole sizes are normally 1/2 to 3/4 inches in diameter and penetrate the upper 2 to 4 inches of the soil. This is usually done once a year. Deep tine aerification – up to 8 inches in depth is usually done twice a year. This is the schedule for aerification of the greens. Advantages and disadvantages associated with aerification include the following:

Benefits:

1. Relieves soil compaction.
2. Allows deeper, faster penetration of water, air, top-dressing sand, fertilizer, lime and pesticides into the root zone.
3. Allows for atmospheric release of toxic gases from the root zone.
4. Improves surface drainage.
5. Improves penetration of water.
6. Penetrates through soil layers.
7. Aids in soil replacement when combined with top-dressing.
8. Encourages thatch control.
9. Increases root depth.
10. Improves turf resiliency.

Disadvantages:

1. Temporarily disrupts or damages the playing surface.
2. Increase turf surface drying.
3. a better habitat for insects.

More on these greenkeeping activities in the next PIPER.
